

## the art of style

Our trend-setting team of designers continually introduce new colors, new styles, and new fabrics, because we know it's not enough that our products provide the most effective Robotic Massage® on the market. To deserve a place in your environment, our chairs must be great looking as well as therapeutic.

It's our way of saying we understand what you want.

## the science of comfort

Everyone likes to feel good. At **Interactive Health®**, it's all we think about.

Our team of scientists, researchers, and engineers analyze the treatments used by massage therapists, chiropractors, and physicians, and turn those techniques into the sophisticated **Human Touch Technology®** mechanisms that animate our family of chairs. By building on our decades of experience as the world leader in massage technology, we consistently produce the most advanced Robotic Massage® systems ever devised.

### Specifications

Style:	HT-102	Chair Reclined Dimensions:	54"L x 28"W x 32"H
Product Description:	Human Touch™ Robotic Massage® Chair	Chair upright Dimensions:	41"L x 28"W x 45"H
Volt AC:	110	Weight Product Lbs:	135 lbs
AMP/Watt:	75/90	Master Carton Quantity:	1 Unit per box
Regulatory Certification:	cETL	Master carton Dimensions:	43.4"L x 30.4"W x 29.6"H
Recline Angle:	Upright 120°/Reclined 170°	Master Carton cube:	22.6'
Massage Head Storage:	Top	Weight Shipping Lbs:	151 lbs
Automatic Timer Shut-Off:	15 minutes	Shipping Method:	Common Carrier
Total Massage Stroke Length:	20"	Shipped From:	FOB Long Beach CA, USA
Upholstery Material:	Leather Match Vinyl	Country of Origin:	P.R.C.
Armrests Material:	Leather Match Vinyl/Solid oak	Warranty:	One Year Limited Warranty
Massage Robot:	Human Touch Technology® Robotic Massage® 2 Discs	Included:	Massage Softening Pad, Use and Care Manual

3030 Walnut Avenue · Long Beach, CA90807

experience the **human touch™**

# meet your personal masseuse

Beneath its luxurious exterior are the “hands” of a trained massage professional ready to provide you with a customized back, leg, and foot massage at the touch of a button. You have to feel it to believe it.

Our multi-patent **Human Touch Technology®** massage system so closely replicates the therapeutic techniques used by back and spinal care professionals that it is the preferred technology of the American College of Chiropractic Orthopedists. It is designed to follow the natural contour of your spine, and move three-dimensionally in four different modes.

## Your 24/7 Personal Masseuse

HT-102 does what you tell it, and supports you where you need it. From the ergonomic designed headrest to the rotating calf and foot massager, you customize each movement to your own preference. The remote control gives you direct access to three individual pre-programmed massage sessions.

Discover the ultimate in Robotic Massage®, wrapped up in a stylish, superior quality exterior that is virtually maintenance free,

**Rotating Multi-Speed Foot & Calf Massager**  
Feels like strong hands providing a powerful three dimensional massage for your calves and feet.

## features

- Human Touch Technology
- 4 massage functions including Rolling, Kneading, Compression, and Percussion
- Curve Track, follows the contours of your spine
- 3 back massage programs (upper, lower & full)
- Range control to customize location of Kneading and Compression functions
- 2-speed - 1 program mode calf and foot massager
- 15 minute auto massage timer
- Power recline to 170 degree angle
- Rugged construction and virtually maintenance-free

Human Touch Technology® starts with a patented mechanism that works like “wrists and arms”. We then added “hands” - massage rollers that move three-dimensionally on a contour track. The result is a Robotic Massage® that feels remarkably human.

**Rolling:** Feels like the gentle hands of a massage therapist, pressing firmly along one side of your spine. It relieves tension and loosens the muscles to prepare your back for deeper massage.

**Kneading:** Feels like thumbs pressing firmly in a circular motion on both sides of the spine. This therapeutic motion goes deeper, lifting and stretching muscles to improve circulation.

**Compression (HTT® exclusive):** Feels like the heels of a professional therapist’s hands firmly pushing alternately on muscles along each side of your spine. This mode aids in improving mobility and posture.

**Percussion:** Feels like fists or the edge of hands rapidly tapping on your back muscles. This is the deep muscle therapy popular in sports medicine. It flexes spinal joints, relieves pressure, and invigorates your entire back.

Rolling:	1 speed	Adjust Manual Manual moves massage rollers to desired location for kneading, compression and percussion	Calf & Foot Massager: 1 program, 2 speeds
Kneading:	1 speed		
Compression:	1 speed	Programmed Massage Sessions: 3 invigorating 15-minute pre-programmed massage sessions	Stop/Auto Park: Stops all massage functions and parks the massage rollers in their highest position
Percussion:	1 speed		
Range Controls:	2 options	Backrest: Power activation of recline/incline	
Spot:	Stationary massage in kneading, compression and percussion modes		
Partial:	Partial massage stroke 3" up and down for rolling		

FUNCTIONS
