Interactive Health® Partners in Your Well-Being

For decades, Interactive Health® has been a leader in the field of massage products. We create state-of-the-art products that embrace the latest technology while applying the ancient healing art of massage. Balancing your physical and mental needs requires the right mix of proper nutrition, exercise, and massage. Interactive Health® Massage Systems are vital components for achieving balance between physical and mental well-being.

To learn more about our company and our products, we invite you to visit us on the Internet at: www.vitalityweb.com or call our Customer Service Representatives at 800-796-9656.

YOU HAVE PURCHASED A TICKET TO TRANQUILITY – CONGRATULATIONS!

Your HT™-270 chair is the perfect bridge between state-of-the-art technology and the ancient healing art of massage. It's a key ingredient for a balanced life, conveniently designed for use at home.

Your HT™-270 chair incorporates Human Touch Technology®. The very latest Robotic Massage® system, HTT® emulates the same techniques used by massage and chiropractic professionals for back and spinal care. Superior technology, combined with a wide variety of massage modes and sleek design, means your HT™-270 chair will be a permanent fixture in your home for years to come.

To ensure that you don’t overlook any of your chair’s features, and that you use it safely, read this manual carefully. Then sit back, relax, and enjoy!
**WARNING:** Do not put hands or fingers near the massage mechanism or rollers while this product is running. Touching the mechanism can result in injury from the rollers squeezing together.

**DANGER:** To reduce the risk of electrical shock
Always unplug this product from the electrical outlet immediately after using and before cleaning. Do not reach for this product if it has fallen into water. Unplug immediately.

**WARNING:** To reduce the risk of burns, fire, electric shock or injury to persons

- This product should never be left unattended when plugged in.
- Unplug from outlet when not in use, and before putting on or taking off parts.
- Do not operate under blanket or pillow. Excessive heating can occur and cause fire, electric shock, or injury to persons.
- Close supervision is necessary when this product is used by, on, or near children, invalids, or disabled persons.
- Use this product only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
- Never operate this product if it has a damaged cord or plug, if it is not working properly, if it has been dropped or damaged, or dropped into water.
- If you feel any abnormal discomfort during the operation of this product, turn off the power immediately and do not use the product.
- Do not allow children to use this product.
- This product is designed for personal in-home use. Commercial use will void warranty.
- This product is designed to operate on standard 120 Volt 60 Hz house current.
- Do not use this product when standing on a damp floor, or when any part of the body is in contact with plumbing or any similar ground.
- Do not massage any area of the body that is swollen, inflamed or covered with skin eruptions. Do not use on unexplained calf pain.
- Do not massage abdomen when pain is present or if you are pregnant.
- To disconnect, turn all controls to the OFF position, then remove plug from outlet.
- Do not operate where aerosol (spray) products are being used or where oxygen is being administered.
- Never sit on the controller. This product was meant to be used in a relaxed position. Never force any body part into the backrest area while the rollers are moving.
- Comfortable clothing is recommended while using this product.
- Do not attempt to repair this product yourself. If a malfunction occurs, please contact Interactive Health® at (800) 355-2762.

**SAVE THESE INSTRUCTIONS**

**Grounding Instructions:**
This product must be grounded. If it should malfunction or be dropped, grounding provides a path of least resistance for electrical current to reduce the risk of electric shock. This product is equipped with a cord having an equipment-grounding conductor and a grounding plug. The plug must be plugged into an appropriate outlet that is properly installed and grounded in accordance with all local codes and ordinances.

**WARNING:** Improper connection of the equipment-grounding conductor can result in a risk of electronic shock. Check with a qualified electrician or serviceman if you are in doubt as to whether this product is properly grounded. Do not modify the plug provided with the product — if it will not fit the outlet, have a proper outlet installed by a qualified electrician.

This product is for use on a normal 120 Volt circuit and has a grounding plug that looks like the plug illustrated in sketch (A). A temporary adapter that looks like the adapter used in sketches (B) and (C) may be used to connect this plug to a 2-prong receptacle as shown in sketch (B), if a properly grounded plug is not available. The temporary adapter should be used only until a properly grounded outlet is available. Sketch (C) shows how the adapter is inserted. This product requires an electrical outlet that is properly installed and grounded in accordance with local codes and ordinances.

This product is equipped with a thermal reset feature in case of overheating. This is an added safety feature to protect you and this product from overheating. If the product should suddenly stop and will not start, turn the main power switch, located on the back of the product, off and do not operate the product for at least 30 minutes. Failure to turn the product off may result in the product starting unexpectedly when the device cools.
GET READY

1. Remove all packaging materials from the chair, then plug the power cord into a 110-volt wall outlet.

2. Power on
Turn the master power switch to On (located on the bottom center of the chair back).

3. Raise the backrest
Use the remote control to raise the backrest to an upright position.

4. Install the head pillow
Attach the head pillow to the top of the backrest using the hook and loop fasteners.

YOUR HT™-270 requires some simple assembly (no tools required). Simply plug it in, turn it on, install the head pillow, and you're set to go!

www.vitalityweb.com
TAKE A SEAT

1. Adjust the backrest
   Use the remote control Power Recline buttons to adjust the backrest angle for maximum comfort.

2. Adjust the footrest height
   While sitting in the chair, pull up on the electric footrest lever (located on the right-hand side of the chair) to raise the footrest to a comfortable height. Release the lever.

When changing direction (from Recline to Incline and from Leg Up to Leg Down), there is a slight pause while the chair gears shift. This is perfectly normal.

The HT™-270 has a relaxing heat feature.
   Use it to warm and ease lower back tension before a massage, enhance relief following a massage, or to soothe lower back muscles without massage.

Before getting out of the chair, always lower the footrest.
   Push down on the electric footrest release lever (located on the right-hand side of the chair) to return the footrest to a vertical position.

Using your HT™-270 chair is easy. Just take a seat, adjust the backrest and footrest to the desired position, and deploy the calf+foot massager (if desired). Your HT™-270 massage chair expertly soothes tired muscles from head to toe, using a wide variety of massage techniques that you control. It’s a luxury you will treasure for years to come.

www.vitalityweb.com
1. Deploy the calf+foot massager

Pull up on the footrest release handle (located on the right side of the footrest).
For a calf massage, rotate the footrest away from the chair until it clicks into position with the calf+foot massager facing up. Do not force the rotation of the footrest past the point at which it clicks to lock. Excess force may damage the mechanism.
For a foot massage, rotate the footrest away from the chair just until the calf+foot massager is facing up. Do not rotate it so far that it clicks into position, the footrest should be moving freely for a foot massage.

2. Insert your calves or feet

Do not stand or sit on the calf+foot massager.
TAKE CONTROL

Now choose a massage mode to suit your mood.

Your HT™-270 massage chair lets you customize your massage using a wide variety of massage modes. Choose from four stationary massage modes and two rolling massages, or combine them. Too tired to make a decision? Just select one of the three auto programs, which alternate between massage modes and target different areas of your back. For specific sore spots, position the massage rollers to target that spot. Your HT™-270 offers maximum flexibility, to meet all of your back massage needs.

MASSAGE MODES

Kneading — kneads your back in small, circular motion on both sides of your spine simultaneously, relieving tension and soreness by lifting and stretching muscles. Kneading improves circulation and helps bring vital nutrients to the spinal area. Press to toggle between auto (alternates speeds), high and low speeds.

Compression — presses on spinal muscles and spinal joint areas using alternating strokes and a gentle rocking motion, emulating a technique used in sports medicine and in spinal therapy by chiropractors. Compression spreads and puts pressure on deep muscle tissue, forcing it to relax, while the rocking motion lessens spinal joint stress. This technique aids in muscle and joint repair due to strain from exercise, long hours spent over a desk, or just day-to-day stress, and can improve flexibility and overall posture. Press to toggle between high and low speeds.

Percussion — alternating rapid-tapping strokes along the spine stimulate both spinal muscles and spinal joint areas, emulating the percussive massage technique used in sports medicine for deep muscle therapy. Percussion massage flexes spinal joints and relieves pressure on the spinal column, invigorating the entire back area. Press to toggle between auto (alternates speeds), high and low speeds.

Kneading+Percussion — combines the Kneading and Percussion massage modes. Press to toggle between auto (alternates speeds), high and low speeds.

Rolling Full Back — rolls gently up and down your back near your spine, gently alternating side-to-side, to warm up and loosen your muscles and prepare your back for deeper massage. Rolling massage relieves muscle tension, improves circulation and increases the back.

Rolling Partial Back — applies the massage to a 3-inch-high portion of your back. Use the Spot Adjust buttons to position the massage rollers to the desired area.
FOR A STRONGER MASSAGE

1. Flip the head pillow over to the back of the chair.
2. Open the horizontal zipper on the front of the backrest cushion.

3. Remove the massage-softening pad from the pocket.
4. Close the zipper.
5. Flip the head pillow over to the front of the chair.

You can re-insert the massage-softening pad in the future, following these same steps.

Want a stronger massage?
You can easily remove the massage-softening pad that comes preinstalled in your HT™-270 chair. But keep it handy, in case you want to replace it in the future.

Additional massage-softening pads are available from Interactive Health®, for an additional charge.

CARE AND MAINTENANCE

To keep your product working and looking its best, please follow these simple care guidelines.

General Maintenance

1. Be sure to disconnect the power cord from the electrical outlet before cleaning.
2. Do not use benzene, thinner or any other solvents on your massage chair.
3. Remove dust on the backrest or armrest with a vacuum.
4. If the backrest or armrests become soiled, wipe with a damp cloth, then a dry cloth.
5. Common upholstery cleaners may be used for tough stains.
6. When cleaning the controller or around the power switch, use a dry cloth only. Never use a damp cloth to clean the controller or power switch.
7. It is suggested that you cover the chair when not in use for a long period of time.
8. The mechanics of this product are specially designed and constructed to be maintenance free. No periodic lubrication or servicing are required.
9. Foreign objects should not be inserted between the massage nodes or the unit housing.
10. When not in use for a long period of time, we recommend that the power cord be coiled and that the unit be placed in an environment free of dust and moisture.
11. Do not store near heat or open flame. Do not leave this product exposed to direct sunlight for long periods of time. This may cause fading or damage.
Limited Three (3) Year Warranty

Please read the following warranty information for important disclosures before using your new Human Touch Technology® massage chair.

It is Interactive Health’s mission to design, develop, manufacture and sell innovative, high quality massage products that create a better and healthier way of life. We appreciate your commitment to our mission and our products and are pleased to let you know that the Interactive Health®, HTT® massage chair that you purchased comes with a limited warranty. The warranty provides peace of mind that you are covered for mechanical or structural defects in workmanship within the coverage guidelines and limitations outlined below.

Coverage Guidelines:
The warranty begins on the original purchase date and consists of:

- Factory Service (Labor): Interactive Health® will supply packing materials, cover return shipping to Interactive Health®, repair parts covered by this warranty and labor for repair work and return shipping to purchaser when repairs are completed.
- Parts Only (Parts): Interactive Health® will supply repair parts that are covered by this warranty and return shipping to purchaser for repairs performed at the factory.
- Structural (Metal Frame): Interactive Health® will supply packing materials and repair parts covered by this warranty and return shipping to purchaser for repairs performed at the factory.

In the unlikely event that your chair malfunctions or requires repair, please contact your retailer. For USA customers only, please contact Interactive Health® Customer Service at (800) 355-2762 between the hours of 8:30AM and 5:00PM PST or cs@interhealth.com for assistance. You can also send a fax to customer service at (800) 840-2940.

All warranty service requires approval and authorization by Interactive Health®. Products require a Return Merchandise Authorization Number (RMA) for any returns to the factory. For returns, the consumer is responsible for packing the product in the original box or in approved packaging that is available for sale from Interactive Health. Shipping and freight coverage under this warranty requires scheduling by Interactive Health and only includes “curb-side” pickup/delivery. Products received without a valid RMA number or one clearly marked on the box will be refused.

General Limitations:

- The warranty is only valid within the United States and Canada provided the product has been operated according to the instructions accompanying it and has not been misused or damaged in any way that is beyond the control of Interactive Health®.
- All service covered by this warranty must be approved by Interactive Health® and repairs performed by authorized technicians.
- The warranty applies only to the massage chair; accessories or enhancements are not covered.
- Important exclusions apply to cosmetic items such as fabrics, woods, foams, padding, plastics covers, etc.
- Interactive Health® is not responsible in any way for losses, damages, or inconvenience caused by equipment failure.
- For a complete listing of warranty coverage, exclusions, and limitations, visit www.interhealth.com.
- Warranties do not apply to rental, business, commercial, institutional, or other non-residential users.
- Separate warranty terms apply to used/refurbished products including those received out-of-box. Proof of purchase (original receipt) is required for all warranty repairs.

EXTENDED WARRANTIES:

Interactive Health® offers extended warranty programs to enhance ownership of the Interactive Health® chair! Extended warranty purchases are available within 90 days of purchase of HT® Chairs from either the retailer or direct from Interactive Health’s Customer Service Department.

Please visit www.vitalityweb.com for the latest terms and pricing for extended warranties.
